Plans for next year

2025

2024 has been a busy year, and we are hoping that 2025 will be just as active.

We have lots of discovery sessions planned and we would love for all of you to come along. We are planning on doing more engagement in 2025 and will be contacting schools and community groups to talk about what we do.

If you are keen to get involved in some of our projects please get in touch. Next year we have Portelet surveys, crab surveys, ormer tagging, all which require member participation!

We will be electing the Chair and Secretary for 2025 at the January meeting.
