Help needed

We need a number of volunteers to assist with the annual crab survey at Portelet.

Meeting in the car park on Saturday 8th of November at 12:00.

Please email MarineBiology@societe.je if you are interested in joining us.

No prior experience is needed – just some enthusiasm!

There are three main roles, collection, measuring and sexing, and recording/note taking.

If you could let us know what role you wish to undertake that will help us to plan the survey.

It is surveys such as this one that will feed into the Jersey State of Nature report, so it is important we keep them going.

What have our members been finding?

Eupolymnia nebulosa
(Strawberry Worm)

Lou Wagstaffe

Disporella hispida
(Bryozoan)

Nic Jouault

What have our members been finding?

Lou Wagstaffe

Onchidella celtica
(Celtic Sea Slug)

Lou Wagstaffe

Acanthocardia echinata
(Prickly Cockle)

What have our members been finding?

Mike Sheldon shared some images from a dive at the Paternosters.
