# New identification guides

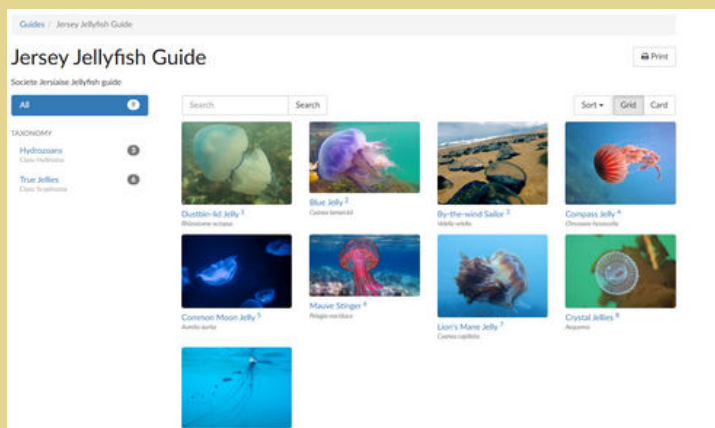

Our section Chair Nick Jouault has been busy creating some i-naturalist guides for members to use when they are out and about. The guides include nudibranchs, anemones, jelly fish, and crabs found in Jersey. He is also talking to the Jerriais section about providing some local names to some of the species. These guides are a fantastic resource for all to use and will aid members to start recording!

# Portelet Crab Survey

**Thankyou to all those who turned up to assist with the crab survey. It was a great turn out and a super team effort! It was also really nice to welcome some new faces. We look forward to seeing you at future meetings and events.**
